Please turn your car off while you wait at the load in point.

## Street Load-In Instructions:

Please follow the volunteer's instructions.

When you do get to your spot, pull all the way over into your spot so others can pass.
- Unload your equipment onto the sidewalk and let your buddy start setting up while you go park your car.
- **Set up your tents on the sidewalk.** Leave enough room for a full size firetruck to get down all the streets.
- You are required to weigh down & secure your tent.
